

MIG Welding Gauntlet WG-111-U

Cotton-lined MIG welding gauntlet with EmberTuff™ split cowhide and Kevlar® stitched seams

- **Cotton lining:** an added layer of insulation and comfort for long, hot shifts.
- **EmberTuff™ leather:** heat resistance built into the hide during tanning, not sprayed on.
- **Reinforced palm:** extra leather across the palm and thumb for heavy MIG work.

KEY FEATURES:

- EmberTuff™ split cowhide shell
- Cotton lining for heat insulation
- Reinforced palm and thumb
- Kevlar® stitched seams
- Extended gauntlet cuff

Exterior not logoed (BOLD label inside). Same construction and materials as the branded model.
